

## Invoice Payments. Simplified.

SmartFee helps businesses pay invoices issued for professional fees over a monthly instalment plan.

We do this by funding the invoice, so your firm gets paid up front (by SmartFee) for the total amount of the invoice and the business owner pays the total amount owed on the invoice over a monthly set schedule.

SmartFee allows businesses to get the services when they need it and not just when they can afford it.

## How does it work?

The payment schedule for your client is based on a fixed amount each month, with repayment terms from 3 to 12 instalments. We have a simple online sign up process, with fast approval (1 business day).

Our dedicated Client Relationship Manager handles all client accounts including payment reminders so you don't have to.

## Why are we different?

Well it's not just the numbers, although that's definitely the case. Over the past 20 years, we've helped hundreds of firms get paid sooner, while offering clients simple, fast and convenient ways to pay their invoices.

We developed the SmartFee monthly payment solution to assist professionals with being paid on time and relieve business owners from cashflow pressures

The SmartFee service also allows professionals to invoice their clients in advance, so their clients are able to pay the fees over manageable monthly instalments.
